A GUIDE TO THE ALLOCATION OF FUNDING

What are your sport's Priorities and Objectives?

The Support for Sport process is an opportunity for sports to revisit their development plan and focus on their Priorities and Objectives for the next 12 months. Sports have an opportunity to receive funding towards Priorities and Objectives that align with those of Isle of Man Sport.

Sponsorship, fundraising and grants from a national or international governing body are other funding avenues open to some sports in relation to specific Priorities and Objectives that do not necessarily align with those of Isle of Man Sport.

This guide is to help sports understand what type of objectives, actions and initiatives Isle of Man Sport continue to support. Isle of Man Sport's financial support to all sports is dictated by an annual budget. Sports will be advised to prioritise objectives for the sporting year if they request funding allocations towards a multitude of objectives. Each recognised sport has an equal opportunity to receive allocated funding to develop their sport.

The Support for Sport process works within an overall budget therefore, in the event of oversubscription, not all initiatives will be able to be funded and Isle of Man Sport may award a percentage less than 50% towards some or all initiatives. There is also no guarantee that objectives, initiatives and actions listed in this document will or will not be funded. They are to be used purely as guidance. Sports using their development plan may identify an objective that aligns with those of Isle of Man Sport but is not listed in the following support guides. The communication with the Sports Liaison Officer is therefore important to ensure sports are supported where appropriate.

Whilst this list is not exhaustive, it is hoped that this guide, along with communication and support from the Sports Liaison Officer, will give sports greater clarity on the process. If you have a query about a potential initiative or claim, please do not hesitate to get in touch with Louise who will be happy to help.

The Support Guides

The following support guides list objectives and actions in relation to each of the three Isle of Man Sport Priorities and Objectives. The lists of objectives and actions are not exhaustive and there are no guarantees that funding will be allocated if a sport includes them in their Priorities and Objectives.

The initiatives or actions that have a green circle tick next to them align with Isle of Man Sport Priorities and Objectives.

The initiatives or actions that have a red circle cross next to them are items unlikely to receive funding from Isle of Man Sport. Further information would be required to support the application as to why the initiative or action needs support through the Support for Sport process.
